Welcome to *Chutes and Ladders*™!

Chutes and Ladders is the exciting up and down game for little people! Boys and girls alike will love making their way to the winning space as they jump ahead on ladders and slide back down the chutes. Along the path, they'll learn number recognition and counting, too. With three different gameboards, a fun cast of animated kids, and exciting mini games in the new Zoo and Circus areas, everyone is sure to have a great time!

Getting Started

Using your mouse, left-click on the "Play Alone" icon or the "Play with Friends" icon.

Play Alone – If you are playing alone, you will be asked to select which on-screen character you would like to be during the game and what color you would like your character to wear. Left-click on your character and color to make your selections. Once you've made your selections, you will be taken to the **Choose a Gameplay Area** screen described on page 7.

Play with Friends – If you are playing with friends, Player 1 will be asked to select which on-screen character he/she would like to be during the game, and what color he/she would like his/her character to wear. Left-click on your character and color to make your selections. The character will then move to the spinner on the right side of the screen, and the next player will select his/her token and color. Repeat these steps until *either*:

- All players have finished making their selections, and the spinner is clicked to start the game; or
- A total of four players have made their selections, and the game automatically begins by taking you to the **Choose a Gameplay Area** screen described on page 7.

Other On-Screen Buttons:

From the Getting Started screen, you can also left-click on any of these icons:

Quit – Click here to exit the game and return to your Windows® desktop.

Options – Click here to open the **Parental Options** box described on page 19.

Play Song – Click here to play the *Chutes and Ladders* theme song.

Choose a Gameplay Area

This is where you choose which area you would like to play in:

THE CLASSIC PARK

The Classic Park resembles the original *Chutes and Ladders* gameboard that everyone knows and loves! Spin the spinner, move ahead and climb your way to the top! But watch out for those chutes — they'll send you sliding back down! Along the way, take to heart the Do's and Don'ts that connect your character to the chutes and ladders!

THE ZOO

The Zoo is an exciting new area for you and your friends to explore. Play the basic *Chutes and Ladders* game on this new gameboard, or try your luck at one of the five fun Mini Games described on page 12. Toss the ball with an elephant, find treasure in a tide pool, or see what those hilarious penguins will do! You'll be amazed by how much fun the Zoo can be!

THE CIRCUS

Find your way to the center of the circus ring to win the basic *Chutes and Ladders* game on the Circus gameboard. There are five fun Mini Games (described on page 12) here to play, too. Try hide and seek with the circus magician, or a quick game of "poodle matching." You'll soon discover why the Circus is such a great place to visit!

About the Gameboards

Each of the three gameboard screens features the following things:

Spinner – Left-click here on your turn to spin the spinner.

Go Back Arrow – Left-click here to go back to the previous screen.

The Basic Rules of *Chutes and Ladders*

Object

Be the first player to reach space #100.

All About the Game Spaces

Take a peek at the gameboard. The spaces are numbered from 1 to 100. You will move your character along the board, following the numbers upwards — starting at space #1 and moving towards #100.

You can also move your character up by climbing ladders and unfortunately down, too, by sliding down chutes. More about that later.

What to Do on Your Turn

Player 1 goes first.

On your turn, spin the spinner by left-clicking on it. Then move your character to the correct space on the gameboard by moving your mouse pointer space by space along the gamepath the number shown on the spinner, and left-clicking on the final space of your move. Your character will then move to that space. For example, on your first turn, if you spin a 5, move to space #5 on the board. Once you move your character, your turn is over.

Important! Two or more characters may occupy the same space at the same time.

Going UP a Ladder!

Any time your move ends on a space at the bottom of a ladder, your character climbs UP to the space at the top of the ladder. For example, in the Classic Park area if you end your move on space #71, you immediately move UP to space #91.

NAUGHTY DEEDS
SLIDE YOU BACK!

CLIMB UP WITH
A GOOD DEED!

Going DOWN a Chute!

Any time your move ends on a space at the top of a chute, your character slides DOWN the chute to the space at the bottom of the chute. For example, in the Classic Park area, if you end your move on space #93, you immediately slide DOWN to space #73.

Ending Your Turn

If your move ends on any of the following spaces, your turn is over:

- A space with no picture (Classic Park area) or special color (Zoo and Circus areas).
- A space that a ladder or chute just passes through.
- A space at the top of a ladder.
- A space at the bottom of a chute.

Winning the Game

The first player to reach the #100 space wins the game.

MATCHING

If You Play in the Zoo Area...

COUNTING

If You Play in the Zoo Area...

Left-click on the **bird cage** to play. Help feed the bird by giving him the right kind of berries. Click and drag the berries to the bird. If you give him the right ones, he will eat them. Keep going

If You Play in the Circus Area...

Left-click on the clown to play. Help the clown get ready for his show by giving him the right number of colored balloons. What a great way to learn your numbers and colors! Once you've given the clown ALL of the correct balloons, watch him fly off to begin the show! You can then either play again, or go back to the main game you were playing at the Circus.

MAZE

If You Play in the Zoo Area...

Left-click on the monkeys to play. Help the mama monkey find her baby who is lost on the other side of the maze! Guide your token through the maze, and try to reach the baby monkey at the end. Be careful not to get lost in the maze yourself! Once you've found the baby, you can either play again, or go back to the main game you were playing at the Zoo.

If You Play in the Circus Area...

Left-click on the **Fun House** to play. Help the clown find his way to his tent so that he can get ready for the show. Be careful not to take a wrong turn! Once you've led the clown to his tent, you can either play again, or go back to the main game you were playing at the **Circus**.

TOSSING

If You Play in the Zoo Area...

Left-click on the elephant to play. Toss the ball with an elephant! After the elephant tosses the ball to you, try to hit the ball back with your racket. Move your mouse to move your character. Once you've hit the ball back the right number of times, you can either play again, or go back to the main game you were playing at the **Zoo**.

If You Play in the Circus Area...

Left-click on the seal to play. Toss the ball with a trained seal! After the seal tosses the ball to you, try to hit the ball back with your racket. Move your mouse to move your character. Once you've hit the ball back the right number of times, you can either play again, or go back to the main game you were playing at the **Circus**.

Printing Time!

In *Chutes and Ladders*, you can print out different scenes from the different gameplay areas and your winning ribbons! Simply left-click on the scene you would like to print, and then left-click on that scene's Printer icon.
